Creative Capsule Infotech India Pvt. Ltd.

Quotes Application (part 5)

Problem Definition:

Consume the Quotes App API Endpoints and design the website.
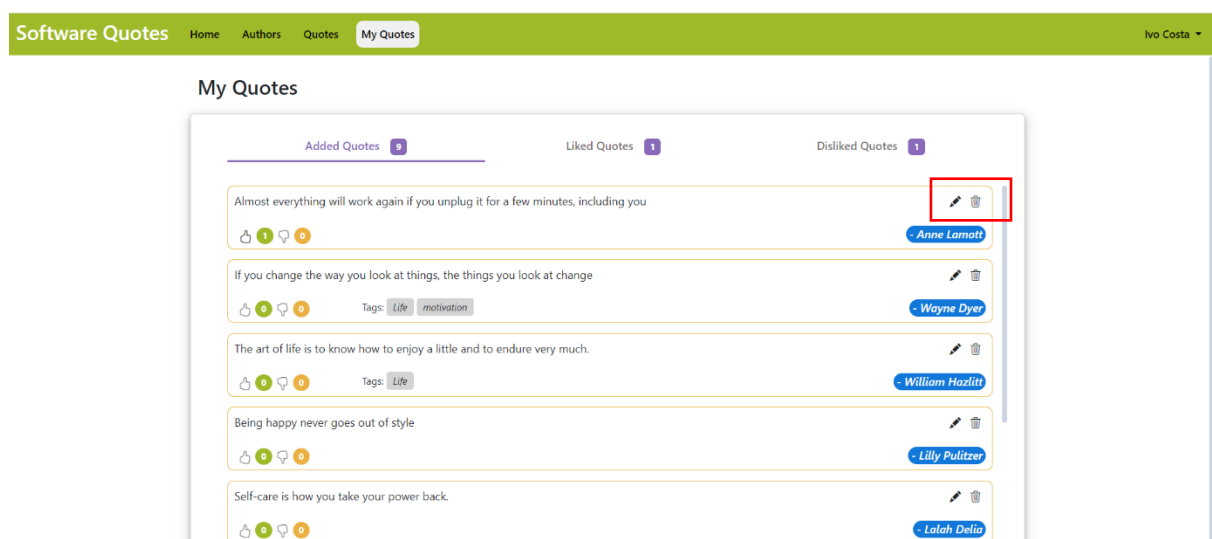

API Endpoints:

All API endpoints are listed in a Word file "Quotes App API Endpoints.".

UI Screens

Below are the sample UI Screens that will consume the API Endpoints. You are free to design your screens. Provided the API endpoints are used correctly.
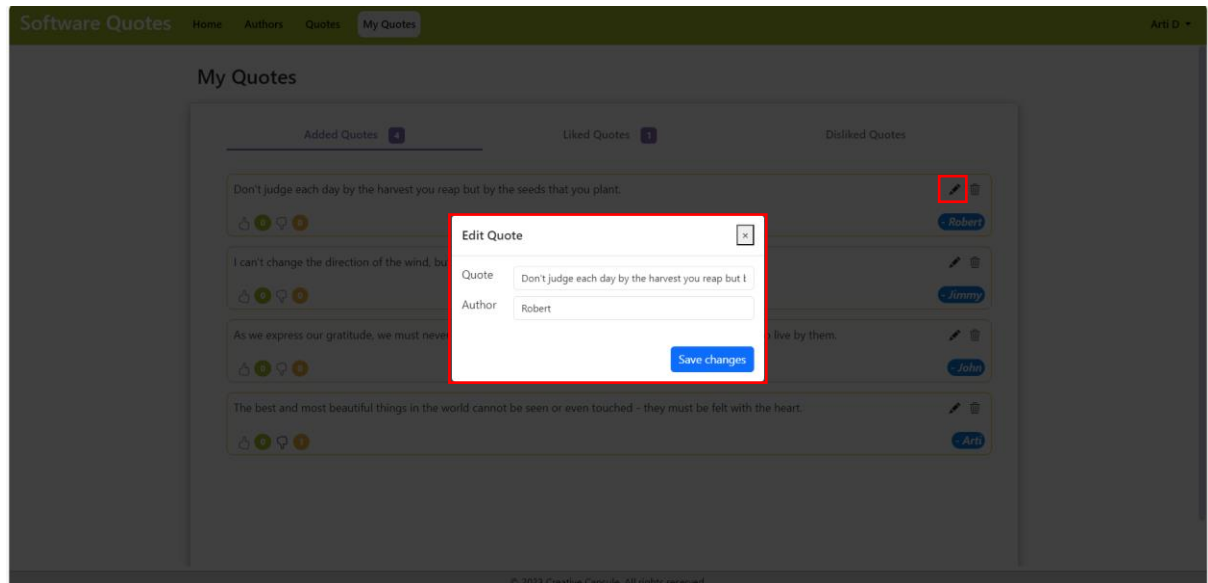

1. My Quotes to Edit/Delete Quote

Open "My Quotes" to edit and delete the quote in "Added Quotes" tab. Add edit and delete button as shown:

2. Edit Quote

When the user clicks on the edit button, open the pop-up to edit the existing data.

Creative Capsule Infotech India Pvt. Ltd.

3. Delete Quote

When the user clicks on the delete button, show the confirmation box.

4. Home Page

Design a Home page to display the Quote of the day.

The Quote of the Day should be a random Quote that the logged-in user has liked.

After all the user-liked quotes list is exhausted then display the user-added quotes, next display the remaining quotes, and lastly, the user-disliked quotes.

Creative Capsule Infotech India Pvt. Ltd.

Note: If the user has not liked any quotes, then display the user-added quotes. If the user has not added any quote, then display any random quote.
